

October Nights
David Simpson
9/7/05

V1

A frozen vision of a perfect, stagnant stream
A latent hatred in the waning, wasting twilight of the dream
Deny, deny...
A comfort culture sets us free
Sedition!
Protagonist: "Eternity...
Falls afar."
See, on and on, our apathy, our none as one
See...
"To do more and who could deplore what it stands for?"

C

Successful:
An acceptance of sacrifice. No compromise!
Unequal,
In this struggle, this honest fight through long October nights
For our principles, our vision of utopia
In rejecting this veiled abuse, this Ministry of Truth
Predators of misuse

V2

The heady, narcoleptic dogma of the few
Directed opposition, fear-inferring fallacies ensue
Awry, awry:
Our good intentions fade from view
Ambition:
The execution of the Truth -
Fall apart
You, on and on, our unity, our one is none
You...
To divide and hope to provide, untried

Br

"In the failure, in the nature of the cause."
Future of the undivided few
To provide the will to decide, untried,
Unimpaired, unimpaired
