

**Effigy**  
**David Simpson**  
**30/01/06**

**Ch1**

"Sorcery, sorcery, fight now!"  
Innocent she prays  
Beyond the trees  
"Your honesty, heresy, dies now..."  
In a sense she mourns  
Innocent of more...

This effigy of Eve  
As one of us will be

**V1**

Shouts in the dark  
Come louder now  
"To fight is far beyond me"

Hunted before  
This nest of lies  
As demonised and so...

Running through the forest in the dead  
of night...

**Br**

Frozen and tired but she is right  
Fated  
To the prophets now she cleaves  
In the fire, so cold  
As one of us will be...

**Ch2**

"...fight now!"... etc.

In a sense she mourns  
A sense that might be wrong

**V2**

Suffering fades, her silent trial  
"To fear is far beneath me"

Tainted and scarred  
This cleansing flame  
Will burn again  
Entitled to salvation

As one of us will be

**Ch3**

As one of us will be  
"Fight now!"... etc.

In a sense she mourns  
A sense that might be wrong

Innocent, the effigy  
One of us will be.
